

GERMANY'S Ad-hoc OFFSET POLICY

The German MOD always has pursued - bilaterally and multilaterally - the abandonment of offset arrangements, since they are counterproductive for economically advantageous defense procurement.

The German MOD will continue to work with allies and partners in the European Defense Agency to limit the adverse effects of compensation arrangements with the overall objective to ban this practice in international policies.

Common Baseline:

- **EDA - Intergovernmental Regime on Defense Procurement – 01.07.2006!**
- **Roadmap on Harmonization of Offset in Europe**
